

UNITE AGAINST THE CYCLE.

DIY Trick With a Treat!

BREW UP SOME FUN WITH THIS EASY DIY TRICK – A TREAT CREATURE!

Crafting projects are an entertaining way to let children explore their creativity and spend time together. This treat bat, butterfly, cardinal, whatever you come up with is a simple project that is fun to make and will send a smile to your child and other children in our community.

GIVING A LITTLE SOMETHING EXTRA

For children experiencing chronic hunger, weekends can be hard. United Way provides supplemental meals with our WeekEnd Hunger Backpack program. The backpacks are given to more than 500 children every week of the school year in classrooms across the Valley. These treat animals will be a festive, special addition to their backpacks.

CREATING YOUR TREAT CREATURE

Making a treat creature is easy!

- Grab an empty toilet paper roll, a flat piece of cardboard or fabric, glue, and whatever you want to use to decorate (stickers, markers, fabric, etc.)
- If the animal will need ears, hold the toilet paper roll vertically and fold the top of the tube in on both sides so it forms flaps at the top
- Use fabric, flat cardboard, paper or other materials to create wings, tails or other features and glue them on
- Give your creature color and a face
- Glue the bottom of the tube to a flat piece of cardboard, a piece of cloth, or fold the bottom of the tube and tape it shut
- Unfold the top flap to put in Tootsie Rolls or other small candies and fold it back over
- Take a picture of your creature and share your experience on social media using **#unitePHX**

THANK YOU FOR YOUR SUPPORT

If you would like to learn more about United Way's WeekEnd Hunger Backpack program or have any other questions or comments please feel free to contact us at volunteer@vsuw.org.
